MODERNISATION

HYDRAULIC DRIVE

The Oakland hydraulic lift range offers certain benefits over other traction drive alternatives, including:

- Dedicated safe area for maintenance
- Flexible machine room location
- SpaceSaver machine room option (see overleaf)
- Lower capital & full-life costs over low to medium rise applications
- Custom solutions available

REGULATIONS

Our lifts comply with the latest regulations, as applicable, including:

- Lift Regulations 1997
- BS EN81
- BS EN81-70 (Part M Building Regulations)

H RANGE

A comprehensive standard range with an extensive selection of options together with the ability to offer custom solutions.

Key features:

- 5 – 40 person standard model range
- 0.15m/s to 1.0m/s
- Accurate floor levelling
- Self-supporting structure option
- BS EN81-70 (Part M Building Regulations)
- Scenic options available (see separate literature)
- SpaceSaver models available (see below)

BED PASSENGER

A range of lifts designed specifically for healthcare applications and designed to accommodate a selection of beds.

Key features:

- 21 – 33 person capacities
- Standard specification
- Sizes available to accommodate a range of beds including the Kingsfund bed

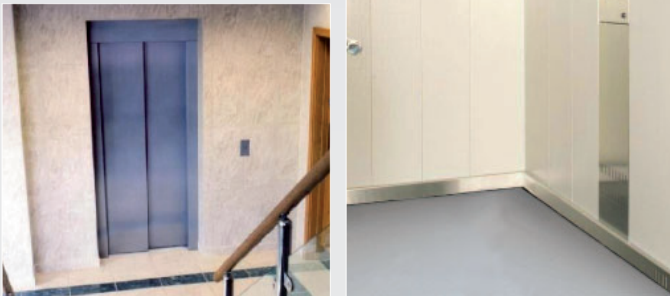

VH RANGE

A cost-effective pre-engineered solution, specifically designed for low-usage applications.

Key features:

- 8 person capacity
- 0.15 or 0.3m/s
- BS EN81-70 (Part M Building Regulations)

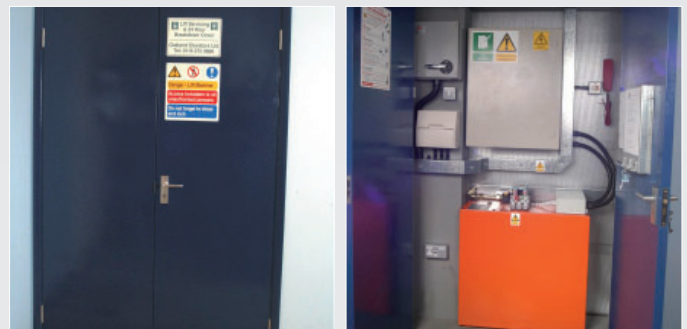

SPACESAVER

Our SpaceSaver solution requires a fraction of the space of a conventional machine room.

Key features:

- 8, 10 & 13 person capacities
- Flexible machine room location
- Minimal machine room space required
